
Input: public CTI
MITRE | ATT&CK
Enterprise knowledge base
MITRE | Center for Threat Informed Defense
Attack Flow examples
MITRE ATT&CK Evaluations
Adversary emulation plans
Collect
1
Collect group data
ATT&CK groups, Attack Flow examples, emulation plans
2
Enumerate reports
every report cited for each group
CTI reports
Curate
3
Clean reports
remove unusable sources
redundant
outdated
dead link
4
Select groups
keep well-documented APT groups
19 APTs
5
Identify campaigns
delimit each campaign in its reports
35 campaigns
Extract
6
Extract behavior
ordered techniques and tool bindings
T1566.001
tool:S0002
7
Update techniques
replace revoked IDs with current ones
T1060 → T1547.001
Normalize & verify
8
Verify sequences
check every ID and binding against the knowledge base
ATT&CK v17.1
APTs_Dataset_TTP
35 campaign sequences
19 per-group chains
19 group profiles
58 source reports
statistics & figures
Output: released dataset
